

Music at Tollbar

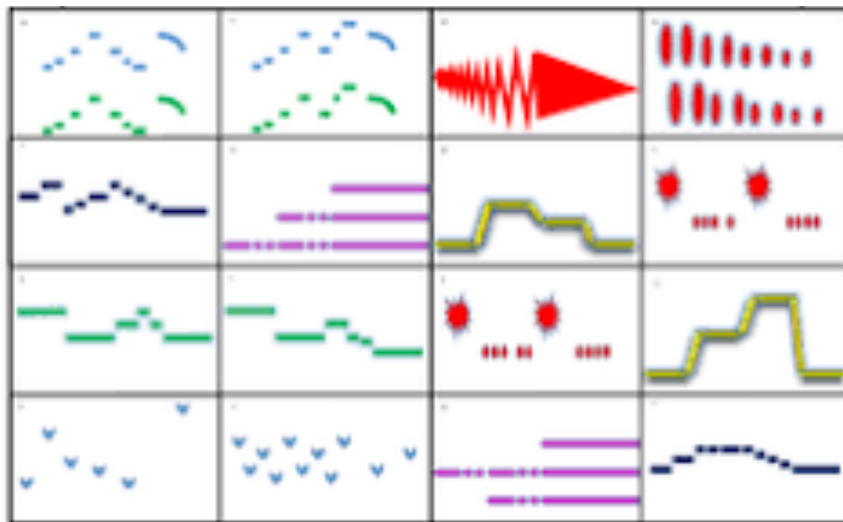

Tollbar Academy

When you come to Tollbar, you will experience lots of different genres of music and will learn how to play lots of different instruments.

Transition activity –

Listen to your favourite piece of music and try and draw how it makes you feel. You might want to show how the pitch (high or low) changes, how the rhythm changes, or even what instruments are used. Here are some ideas to get you started.

Starting a new school is a perfect opportunity to do something new. If you fancy learning how to play an instrument (including singing), speak to one of your Tollbar music teachers.
