

RE

One of the most important parts of RE is to think about our what forms an identity and how this can be expressed. We look at this from the perspectives of individuals and groups. One way that this is achieved is by using symbols. A symbol is a picture or object that has a deeper meaning.

Fill in the coat of arms below with symbols that express your identity and write your name on the banner underneath (for example, if you like football, you might choose to draw the badge of your favourite team). Once you've completed this, draw as many religious symbols as you can around the outside (such as the cross from Christianity) and find out what they represent.
