

Welcome to Technology at Tollbar Academy. Below is a fun and thoughtful task for you to have a go at.

# Identifying and Solving Problems 1

## Situation/Product

This type of wheelchair is going to be used by people of all ages taking part in arts and crafts activities. The people using the wheelchair will need easy access to a range of arts and crafts materials and tools.

What do you think needs to be designed?

What things do you need to think about? Write these below.

In this space, draw out a design that would solve the problem. You can use colour and notes to communicate your idea.
